

## Leakage Sensor Cable

### Specifications:

- **Material:** Braided special plastic fiber
- **Detection Sensitivity:** < 0.3 mL
- **Maximum Detection Length:** 100 m
- **Heat Resistance:** Continuous use below 60°C

# Leakage Sensor Cable

## Application:

- Detects leakage in liquid cooling systems (e.g., data centers, AI servers)
- Installed around UQD joints to detect leaks at pipe connections
